

LIBERALS FAVOR WOMEN SUFFRAGE

Lloyd George, Addressing Monday Meeting in London, Says Measure Will Carry

MAJORITY ON BOTH SIDES WILL SUPPORT

Brought in as a Government Measure, However, It Would Shatter Cabinet

London, Feb. 23.—David Lloyd George, chancellor of the exchequer, was the chief speaker tonight at a meeting of the National Union of Women's Suffrage Societies. The demonstration was called to give support for an amendment to the government's reform bill providing for the granting of suffrage to women on the same lines that it is given to men. The hall was packed with enthusiastic supporters, while on the platform were numerous members of parliament, representative of all the parties.

Mr. Lloyd-George said women's suffrage had not been included in the government bill because the question was one on which no party had agreed, but that three-fourths of the liberal members of the House of Commons and two-thirds of the members of the cabinet would support an amendment to the bill covering it. "If suffrage for women were made a government measure, the cabinet would be shattered," he said. "But if it were introduced as an amendment to the reform bill this would enable all its supporters, irrespective of party, to vote for it and a sufficient majority would be carried next year."

Calgary, To Get Next Convention

Calgary, Feb. 23.—Calgary will be the National Convention of Builders' Exchange in 1912. This is the gift of a vote received from Alderman Trevelyan, who is at present in Toronto where the convention is now being held. "Some little time ago an invitation was issued by Mayor McClell to hold the next convention in this city, with the above result."

GIRL GOES INSANE ON WAY TO CANADA

Mad Case of English Girl Who Was Coming to Calgary to Join the Man to Whom She Was to be Married.

Calgary, Feb. 23.—On her way to Calgary to meet her prospective husband, who after coming to the west in two years ago, had been waiting for her to build a home in Calgary and who was now in England, she was engaged to be married to him. "Daisy Reed, a healthy looking English girl, became violently insane and after being held in the hospital here for some time in the hope that she would regain her sanity, will have to be deported."

The girl went violently insane on the boat coming to Canada, but notwithstanding the pleadings of her friends was allowed to land and was brought all the way to Calgary. Even the sight of her lover failed to bring back her reason and after a vain wait of weeks the girl will be sent back home. The man who had prepared the home here for his bride-to-be, has made good in Canada, but feels his trouble keenly. He will accompany the girl back to England.

BOURASSA'S DELEGATE IS IN DEBT

Brings Up Question of the No Tenure Dues in Quebec Legislature

THOUGHT PROVINCE SHOULD BE CONSULTED

Thinks That Protestants Should Attend to Their Own Churches Alone.

Quebec, Feb. 23.—Echoes of the No Tenure dues case were heard in the House of Assembly here today when Henri Bourassa, leader of the opposition, discussed the respective powers of the federal and provincial governments regarding legislation to cover such cases. He indicated his opposition to the reference under which the question raised by the Lancaster bill is to be submitted to the supreme court, Quebec should be consulted by the federal authorities, and he asked the premier if this had been done. Sir Lomer Gougeon replied in the negative.

Mr. Bourassa claimed that the federal government should not have the right to legislate on a matter without consulting the province. He said that the decision by the province would be the final one. He said that if any doubt existed as to the validity of such a decision, it was the duty of the legislature to remove the doubt, as had been done in other cases.

But as to the marriage of two Catholics, he declared, neither Bishop Falardeau nor Mr. Lafrance should put their nose into that affair. This he considered purely a matter to be dealt with by the Roman Catholic church itself. "I am a British subject," said Mr. Bourassa, "but I am a deep admirer of the Anglican church, also of the Presbyterian church, for what they have done for humanity and the liberty of conscience, but I am not a member of either. Let each keep to his own faith. This is the only way of preserving unity in a country like Canada."

TELEGRAPHIC BRIEFS

Winipeg, Feb. 23.—The result of voting on church union by the quarterly boards of the Methodist churches in Winipeg has not been definitely obtained, but the return as far as justifies the opinion that Methodists will endorse the proposal. The ballots are being counted and the result will be settled by Saturday.

PRICE IN HUNTING ACCIDENT

Son of Duke of Connaught Thrown From His Horse.

London, Feb. 23.—Prince Arthur of Connaught, son of the Duke of Connaught, Governor-General of Canada, was today thrown from his horse while fox hunting at Blenheim, Yorkshire. He was not severely hurt, although he was greatly shaken.

STRONG CRITICISM OF INSTRUCTION SYSTEM

Objection Taken at American Physical Education Association Meeting Held in Montreal to Old System Already Proved a Failure.

Montreal, Feb. 23.—There was considerable criticism of the scheme for the administration of the trustees board by Lord Strathcona for the introduction of physical training in Canada at today's session of the conference of the American Physical Education Association held in the McGill building at McGill. Dr. R. Tait McKenzie, the president of the association, went so far as to say that if the present plan were persisted in, the object of Lord Strathcona's generous provision would be defeated.

The Strathcona trust makes available about \$20,000 annually for the teaching of physical education in the schools of the Dominion. According to the plan now being put into operation for the administration of the fund, the physical education of the school children is to be carried out by the old drill sergeant line.

This it was said had been tried in England, France and America, and had been abandoned as a failure in each country. Yet it was to be adopted in Canada under the Strathcona trust. The physical instruction was to be given by drill sergeants and to be of the military type. Thus immobility and precision in meaningless movements and exercises founded on unscientific notions were to be perpetuated.

Despite their shoe and keeping his gun pointed at both men, he backed out and went along Eighth avenue to Third street, east down which there were a number of men, some of whom the claimants who had armed themselves and followed, firing into the air as they ran.

Despite their shoe, however, the man equipped and no clue as to his identity has yet been unearthed by the police, who are working on the case.

POISONED INFANTS

Kitchen Woman at Babies Hospital Had Placed Oxo in Food

New York, Feb. 23.—The mystery of eight deaths of babies in the Brooklyn hospital and infants hospital, was solved, the police say, by the confession tonight of Winifred Ankus, a kitchen woman at the hospital, admitting that she placed oxo in food.

The alleged confession was obtained by a police lieutenant and detective after two hours examination of the kitchen woman, who had been under surveillance since the autopsy revealed the probability that the infants had been poisoned.

BRITISH APATHETIC ON CANADIAN BONDS

London, Feb. 23.—The Bank of Montreal is today offering the underwriting of the Canadian government conversion loan of \$500,000 pounds sterling, three and a half per cent stock at 98. The public seem apathetic in the matter of the new issue.

The apathy for Canadian questions has generally diminished, but the Dominion's credit remains unimpaired. It is expected that the loan in question will meet with a fair reception.

CROSS THE NEW HIGHWAYS BILL

Ottawa House Sponsors Day in Consideration of Measure to Assist Trunk Roads

LAURIER WANTS AD ON SUBSIDY BASIS

Majority of Members Did Not Favor a Road Across the Continent

Ottawa, Feb. 23.—Several government bills which had previously been considered were advanced a stage in today's session of the House of Commons. Then settled down to an all day talk on the bill introduced by Hon. Frank Oliver, some time ago to provide for federal assistance in the construction of highways.

In this, however, Hon. G. E. Foster gave notice of an important amendment to the bill, which he intended to introduce, as follows:

"The provisions of section 104 with the exception of sub-section 1 there shall apply to sample markets established by the board and approved by the governor in council."

On the second reading Sir Wilfrid Laurier moved an amendment to the bill, which, while declining in favor of the principle of the bill, still the government did not desire to be given to the various governments on the same basis as the subsidy grants or in other words, on a basis of population.

Premier Borden declined to accept this. He said, however, that he expected that the practical working out of the plan would be in conformity with the terms of the amendment.

Premier Borden declined to accept this. He said, however, that he expected that the practical working out of the plan would be in conformity with the terms of the amendment.

On the sixth reading Sir Wilfrid Laurier moved an amendment to the bill, which, while declining in favor of the principle of the bill, still the government did not desire to be given to the various governments on the same basis as the subsidy grants or in other words, on a basis of population.

Premier Borden declined to accept this. He said, however, that he expected that the practical working out of the plan would be in conformity with the terms of the amendment.

On the seventh reading Sir Wilfrid Laurier moved an amendment to the bill, which, while declining in favor of the principle of the bill, still the government did not desire to be given to the various governments on the same basis as the subsidy grants or in other words, on a basis of population.

GREAT RELUCTANCE AMONG ITALIANS

Annexation of Tripoli is Passed By Deputies and There is National Joy

PREMIER ADDRESSES NATIONAL POLICE

Says That Enterprise in Tripoli Has Been Undertaken After Due Consideration

Rome, Feb. 23.—The chamber of deputies tonight passed the bill for the annexation of Tripoli by Italy and the senate will do so tomorrow. The measure was greeted with enthusiasm cheering from the floor of the chamber and the public in the gallery. Afterwards the members who voted against the measure, including the Socialists, a few Republicans and one Liberal, Prince Cicala, were roundly abused.

When the result became known outside the chamber enthusiasm was hailed everywhere and the populace began to display their national colors. The streets were crowded with people. Placards on their doors announced that business had been suspended "for national rejoicing." (C) 1912, The Associated Press.

IN THE REALM OF WOMAN

BY PENelope

Character.

Life is a current woven through with deeds of good or ill. And action is the cloth we weave when life with good we fill. Within the warp and weft each day Runs right or wrong and right; And character the pattern stitched Upon the cloth of life.

—George Edgar Price.

ADD SOCIAL.

Mrs. E. A. Macdonald, 424 1/2 street, will receive on Tuesday for the first time since her return from abroad, and on the day of the first and third Tuesday of the month. The women of the club will receive with her.

The annual meeting of the Canadian Handicrafts Guild takes place on Monday at 247 Seventh street, at eleven o'clock a.m. instead of in the afternoon, as previously announced, owing to the fact that Dr. Bryce will address the Women's Canadian club at three o'clock on that day.

Mrs. J. D. Hynes entertained at a dinner party on Thursday night. A few bowls of pink tulips graced the table, while a vase of roses, lacking of the same flowers stood at each corner. SATURDAY, FEBRUARY 24, 1912

It is now supposed that Yuan Shi Kai and Dr. Sun Yat-Sen have an "understanding." The talent of the press correspondents in China for discovering the obvious as astounding.

The Senate is now the hope of the western grain grower. The second chamber may throw out the proposed amendments to the Grain act empowering the elevator or commission to deprive the farmer of his share of the cars for loading grain. It is to be hoped this is done. The car distribution clauses were put into the Grain act because without them the farmer could not get cars in time to ship grain and was obliged to sell his grain to the local elevator or keep it. To put into the hands of an irresponsible body the power to amend these clauses would be to give the grain dealer interests the whip hand over the farmer.

Winnipeg is now feeling what Toronto felt a few years ago when the judicial committee of the Privy Council decided that the street railway company could build on what streets it pleased and when it pleased to close any of both decisions is that when a city gives a street railway company a franchise it gives the company virtual control over the streets of the city in as far as this may be necessary to the most profitable operation of the street railway system.

The citizens are promised water—as distinguished from mud—during the coming summer. The change will be as welcome as noticeable. The water supply made by the engineer of the filter company who is installing the new apparatus for straining the real estate out of the fluid for which the city collects water rates. The engineer also announces that he will stay on the job until the season of muddy water has passed. He is courageous man, for if he fails to deliver the goods it may go hard with him.

Those who are fond of throwing jibes at the Hebrew as being "clever" in money matters will note that the Hebrews of Montreal have raised a half million dollars in two weeks for the establishment of a tuberculosis sanatorium. Incidentally, has any one seen one of this race a vagrant? The Jew may be thrifty but he looks after the sick and needy of his own people in a way that might well be imitated by those who make him the butt of their sarcasm.

It is intimated that the Government's assistance to naval development may take the form of a subsidy to the C. P. R.—the condition being that the company's new ships for the Atlantic service shall be so constructed that in time of war they can be converted into cruisers. The proposal looks like one the Government might be expected to take up. For one thing, it would enable the Ministers to cement anew the traditional alliance between the ruling party and the C. P. R.—the public paying for the country's naval armament would be in the way of a pretence at naval assistance without in reality being of much use to Great Britain—which is as far as the Nationalist branch of the Government could be expected to go for the sake of keeping peace in the family.

PROTECTION USELESS.

The Saskatchewan Legislature passed unanimously a resolution asking the Federal Government to remove the duty on steel rails, in order to allow railway construction to proceed more rapidly. During the course of the debate it was declared that between five and six hundred miles of railway grade have been completed in that Province for which the Canadian mills could furnish rails. Railway companies have been held back from the same cause in their building operations in this Province. With the large construction program authorized by the Legislature at the recent session the demand for rails for Alberta lines will be larger than hitherto, while the demand from Saskatchewan will doubtless continue. Under the circumstances it is folly to retain a duty against foreign rails. Experience has shown that while the prohibition of foreign rails has held up railway construction, the protection afforded the Canadian mills has not induced such increase their capacity as will meet in any reasonable or tolerable degree the needs of the country. To continue the duty would only be to continue to hold back railway expansion, and thereby to retard the progress of settlement and development. The interests of the country should not be subserved to the interests of a handful of unprogressive individuals who have not lived up to opportunities given them nor made a serious effort to supply the commodity in respect of which they enjoy a practical monopoly.

A JOIL FOR THE MEDDLERS.

John Renfrew electors dealt the Government a severe blow Thursday which it will be hard to try to deny or minimize. The fight was a Government fight peculiarly and distinctively. It was made by the Minister of Agriculture, the written agreement of the local Conservatives to not oppose the election of Mr. Graham. For this there was no necessity in the circumstances of the party. It was not a case where the Government would suffer loss of prestige by letting the election go by default. On the contrary credit was to be gained by observing honorably the contract entered into by the Conservatives of the riding. Nor did the Government need another supporter in the House. The ministers were therefore under no moral obligation, and also the inducement of tactical sense, to allow the agreement made by their local friends to stand and the seat to Mr. Graham without a contest. Under such circumstances they would not have forced a fight unless certain that they could win, and prepared to do all that date be done to win. The Ministers forced the fight, declared to the world that a written and signed contract made by a Conservative association anywhere in the Dominion of Canada is not worth the paper it is written on, brought out a candidate, dragged the local Conservatives into line, and set against Mr. Graham every ounce of influence they and their friends and their backers and their party-organizers—and it is said unlimited money—coming to beat against him. Having forced the contest they must take the verdict as applying directly to themselves.

SHIRKING THE ISSUE.

The Minister of Finance indignantly tried the other day to put the blame for market conditions in western Canada on the manner in which the National Transcontinental is being constructed, claiming that had the Winnipeg-Quebec section been first completed a new outlet would have been afforded for western wheat to the Atlantic. Supposing it had been possible to have completed this section earlier, the conclusion of the Minister follows that more wheat might have gotten to the seaboard in a given time than over the present routes. But the conditions in the western country are not solely nor mainly due to the lack of facilities for getting the wheat to the Atlantic. The western farmer does not want to get his wheat to the Atlantic. He wants to get it into the United States markets, where the prevailing prices would net him several cents per bushel more than

The Liverpool price less freight. A hundred transcontinentals would not compensate the western farmer for the injury done in excluding his wheat from the markets south of the boundary, because all his wheat were hauled to the Atlantic in a month the farmer would still be out the difference between the Liverpool price and the price he could get in the United States if allowed to take advantage of the free entry to that market which was and is offered to him.

CURRENT COMMENT

Montreal Herald—Candidates for Hainard reappearings will be required to write answers. This is most proper; the Hainard reporters have to write most of the readable speeches that get into Hainard.

Montreal Herald—Ontario's law will make it possible for the man who loses over forty dollars in a poker game to recover the money by suit, but even in Ontario public opinion is hardly likely to be so much of the man who sits in such a game in the hope to win and then resorts to the courts to remedy his losses.

Calgary Alberta—Now that the legislature has closed Edmonton people will know for certain that the stranger on the street is either a commercial traveller or a man who has lost his way. Last week there was a third guess. It might have been a lobbyist.

The current issue of the Commercial Traveller, published in Winnipeg, and the official organ of the Northwest Commercial Travellers' Association, contains the following:

Travellers report that the car shortage is having a serious effect on business throughout the west as farmers have exhausted their cash resources and are consequently buying only the bare necessities of life. In many cases there are obtained from the stockholders from humane consideration alone. Conditions this year in the west call loudly for improvement and if private enterprise cannot provide the necessary facilities for curing, storing, and transportation of wheat, it will be incumbent upon the government to step in and intervene.

"While the total grain yield of the west is larger than the year 1911, it is small as compared with what the yield will be in a few years hence. When the crop is four or five times larger than at present, there will be no room for the surplus of one Canadian of Canada unless the grain growers are allowed the use of EVERY outlet for their produce. Ominous rumblings of a future storm are already heard and the colonist who has his ear to the ground will be wise to take heed of the indications."

Too much blame should not be placed upon the railways for the present trouble, as the transportation companies are doing their best to cope with the situation. The truth is that the west is expanding so fast that the facilities for outlet and marketing are choked up and NEW OUTLETS AND NEW MARKETS ARE URGENTLY REQUIRED. If Western Canada is to continue to make progress at the rate it has been developing in the last few years, the difficulties of the moment may be surmounted and will probably disappear before spring, but are bound to recur and intensify with each succeeding year unless radical departures are taken."

Calgary Realty Men to Organize.

Calgary, Feb. 23.—The Calgary real estate men will hold a meeting next week as the result of a largely signed petition for the purpose of organizing a real estate exchange. The exchange will be organized along the lines of similar exchanges in Winnipeg, Vancouver and other large cities.

MANITOBA METHODISTS ARE ALL FOR UNION

Winnipeg, Feb. 24.—According to the report which has already reached the city, official boards of the Methodist church throughout the province of Manitoba have either declared themselves unanimously in favor of the union, or in favor of church union. The majority of the boards held their quarterly meetings early in the month and now it is feared that as far as the officials are concerned, the Methodist church will be practically unanimous for union.

SON SHOTS FATHER FATALITY

On Thursday, Dr. J. H. Drayton, 24, Feb. 19.—Walking from the Northern Pacific depot to the Elmer Johnston bank building, Dr. Wallace, who recently was arrested in Minneapolis after he had threatened to kill his father, walked into the front door of the building about 1:10 o'clock, tonight and shot J. H. Drayton, cashier, and his brother-in-law in the chest and then turned on his father, N. W. Wallace, shooting him in the head and through the stomach. Wallace then walked to the rear of the office and after sitting down in a chair shot himself above the right ear. Dr. Wallace was not fatally injured, but the other two died within a few minutes of the shooting.

THE DOMINION LIFE ASSURANCE COMPANY

Twenty-Third Annual Report

Remarkable Growth in All Departments—Profits to Policyholders Particularly Noteworthy

Prominent Features

BUSINESS. Policies issued and revived, \$2,411,742. Total business in force \$12,220,657, being an increase for the year of \$1,111,831, the largest in the company's history.

INCOME AND EXPENDITURE. Cash income from premiums (net), \$774,432.57; from interest, \$162,961.46; total, \$937,394.03, an increase over 1910 of \$84,848.82. Out of this income \$168,745.87 was paid to policyholders and a balance of \$768,648.16 left to be carried forward after paying all expenses of management.

MORTALITY. The actual mortality experienced was only .23 per cent of that expected according to the Government Tables.

EARNING POWER. The Policyholders' Funds were accumulated at 7.50 per cent interest—the highest rate offered by any company in Canada.

ASSETS AND LIABILITIES. The Assets increased by \$255,452.95 to \$2,526,115.86. The Liabilities (considerably higher than Government requirements) now stand at \$1,552,512.27.

SURPLUS. Earnings for the year were \$115,769.34, and after paying the dividend to shareholders, and paying out, \$19,768.67 to policyholders account in cash bonuses the sum of \$95,990.67 was left, which increased the net surplus by 29 per cent, making the total surplus over all liabilities \$364,572.28. This surplus would be over \$46,000 greater, if the Company took advantage of the allowance authorized by the Insurance Act respecting new business. The payments made on matured policies within the year were exceptionally gratifying.

A brief little memorandum book giving full particulars of the Company's record in 1911, will be mailed on request.

Liberal Victory in South Renfrew Enrages Members of Borden Government.

Ottawa, Ont., Feb. 22.—The Liberal victory in South Renfrew was the big topic of interest around the House of Commons last night. Sir Wilfrid Laurier's entrance into the chamber at the night sitting was made the occasion for a rousing ovation. Challenges were thrown across the floor to the ruling Government benches to bring on another in Quebec. Hon. J. S. Reid and Hon. Frank Cochrane, who were primarily responsible for the heavy blow to the Government, left the chamber abruptly amid Liberal cheers.

The day was spent on the tariff commission bill. The Opposition put up a vigorous fight to compel the commission to hear whoever presents himself with evidence. The Government is determined to restrict the hearings to those only whom the committee should summon. Hon. Wm. Pugsley proposed a reasonable amendment, to which Hon. W. T. White was compelled to promise consideration. The Liberals were active and brought out strongly the fact that the Government's desire was to have only such evidence as it chose placed on record.

SUMMING UP HAS BEGUN IN CAMORISTIS' TRIAL

Formal Proceedings Were Begun Eleven Months Ago and the Last Witness Was Heard on Wednesday—Proceedings Address Given.

Vigevano, Italy, Feb. 21.—The summing up has at last begun in the trial of the group of Camorristi charged with the murder of Giuseppe Cuccola and his wife in 1906. Formal proceedings in the case were begun more than eleven months ago and the last witness, it was announced, was heard today. He was an engraver, Argento by name, who engraved Cuccola's initials on the ring which was alleged to have been found by the carabinieri hidden in a mattress in the house occupied by Giuseppe Ascoli, and which has been one of the important exhibits in the case. Argento denied emphatically having declared as the defense maintained that the engraving was done after Cuccola's murder. Signor Salomone, one of the lawyers, said later that proceedings would be taken against Argento for perjury. Signor Rota then began the preliminary summing up for the prosecution. His address occupied the entire afternoon. He pointed out that the celebrity did not depend on the fact that two criminals had been murdered, but because the case represented the attack of a great social evil by a people desirous of shaking off a criminal yoke.

Young Bandit Held up Train. Wheeling, W. Va., Feb. 20.—Railway detectives and county authorities are today scouring the country between Piedmont, W. Va., and Allmont, Maryland, in search of a young bandit who last night held up and robbed the New York and St. Louis express on the Baltimore and Ohio railroad at what is known as the 17-mile grade between those points. He secured \$400 in cash and jewelry.

Roosevelt's Answer Monday. Cleveland, Feb. 21.—During the brief stay of Col. Roosevelt in Cleveland, W. P. Eirik, well known locally in politics, greeted the former president when he knew well, "I want a direct answer Colonel," said Mr. Eirik. "All your friends want to know and want to know now, whether you are to be a candidate." "My hat is in the ring," replied Col. Roosevelt. "You will have my answer Monday."

TERRIFIC BLIZZARD SWEEPS OVER MICHIGAN

At Least One Person Is Dead as a Result While 25 More Are Injured—Trains and Street Cars Cripple in the Storm.

Detroit, Feb. 21.—The worst blizzard experienced in Michigan in years was responsible today for the death of at least one person and the injury of possibly 25 others, as the result of collisions between trains and street cars due to the blinding storm, steam and electric railroad traffic is paralyzed in all directions. Several trains are running from five to eight hours behind time.

One passenger was killed and several were hurt near Ypsilanti, when a freight train crashed into a stalled passenger train on the Grand Rapids and Indiana road.

At Bay City two street cars came together in the storm, injuring the motorman and several passengers.

Hundreds of miners are stranded tonight in tunnels and wash shanties near Bay City, unable to reach their homes because of the suspension of the telegraph service. The men are being fed by nearby farmers.

Fire in Wallaceburg. Wallaceburg, Ont., Feb. 21.—The Dominion Cartridge Explosive company plant here was almost completely destroyed by fire tonight. The cause is unknown. Twenty-five men are out of employment.

WHY SALVES CAN'T CURE ECZEMA

Since the old-fashioned theory of curing eczema through the blood has been given up by scientists, many different salves have been tried for skin diseases. But it has been found that these salves only clog the pores and cannot penetrate to the inner skin below the epidermis where the eczema germs are lodged.

This—the quality of penetration—probably explains the tremendous success of the well known **Roid eczema** remedy of wintergreen, thymol, salicylic, etc., as compounded in D. D. D. Prescription.

We have sold other remedies for skin troubles, but none that we can

recommend as highly as this for we know that D. D. D. cures the itch at once.

Of course, other druggists have D. D. D. Prescription—go to them if you can't come to us—but don't accept some big profit substitute.

But if you come to our store, we can tell you all about D. D. D. Prescription and how it cures eczema, because we have had the agency for so long.

Or you can get a free trial bottle by writing the D. D. D. Laboratories, 49 Colborne St., Toronto. Geo. H. Graydon, Dispensing.

The Appropriate "Lenten" Food

Jersey Cream Soda Biscuits

Are called the appropriate Lenten Food because marked by superior. All McCormick's Biscuits are that. There are many reasons why. The exclusive quality of McCormick's Biscuits is the result of over half a century's careful experience in the blending of the world's best flour—over fifty years' study of the science of baking.

The best Creamery Butter—Fresh Yeast. We make it daily—Sweet, Clean, Whole Milk and Pure Sugar. Every ingredient we buy for use in our "Bakes" must be known as the purest and the best. But to make doubly sure of purity and wholesomeness we submit samples to our Chemist for analysis.

Yes; we take more care—spend more money to insure Purity, Quality, and lasting Goodness than competitors; but—It pays you better and pays us better in the long run.

Jersey Cream Soda Biscuits are justly the favorite Lenten Food. Perhaps you have decided to try them for the first time. You will like them—and you will continue to use them because of their fine flavor—their lasting goodness, and that nourishing wholeness which they possess in such a bundle. Ask for
